OFFICIAL WHITEPAPER

# INTRODUCTION

The Golden Shiba is a new meme token that is designed to be a passive income ecosystem. It is built on the Ethereum blockchain, and it has an extremely high yield of \$GOLDSHIB tokens.

Golden Shiba is a decentralized meme token that is evolving into a passive income ecosystem. It is currently in the middle of its bull run and is waiting for the spring of the cryptocurrency market. As a holder, you can earn \$GOLDSHIB with extremely high yields in the golden vault just by holding and staking \$GOLDSHIB tokens.

**So no matter how bad the cryptocurrency bear market is, you have a safe passive income method waiting for the spring of the bull market.**

Golden Shiba is a new cryptocurrency that has been born from the Golden Shiba meme. The community behind this project is made up of people who love the original meme, but also want to see it improved upon and developed into something more. Golden Shiba seeks to impress the original Shiba Meme community by showing off its new transaction speeds and lustrousness. Because it's hyper-deflationary and static reflection, Golden Shiba tokens are being automatically added to your wallet each time you make a transaction.

## LIQUIDITY LOCKED

We are happy to announce that the Liquidity has been locked on Pink Sale for a whole year on our \$GOLDSHIB token. Locking liquidity makes the funds immovable until they are unlocked.
